

VICENTE AZNAR

Full Stack Developer | Systems Engineering Student

Phone: +54 3512592308 | Email: aznarvicente8@gmail.com | Portfolio: www.vicenteaznar.dev | LinkedIn: linkedin.com/in/vicente-aznar-dev

Profile

Full Stack Developer and Systems Engineering student with experience building business-oriented web applications, from backend logic and workflow automation to responsive frontend interfaces and cloud deployments. Focused on developing scalable, maintainable solutions that improve internal processes, integrate with existing systems, and support real business needs. Interested in backend architecture, AI-assisted automation, RAG-based knowledge systems, and continuous improvement across the software development lifecycle.

Work experience

Full-Stack Developer

January 2025 - Current

Porta Hnos S.A., Córdoba, Argentina

- Architected 4 corporate systems end-to-end (React | Django | PostgreSQL), reducing internal management time by 40% through digitization of manual workflows.
- Designed a RAG system using Python to feed an LLM with Jira cards from a specific board, keeping supervisors informed across the organization.
- Collaborated with cross-functional teams to translate business requirements into technical specifications.

Software & Product Development Intern

June 2023 - July 2023

Globant, Córdoba, Argentina

- Participated in an intensive professional immersion program focused on the end-to-end Software Development Life Cycle (SDLC).
- Collaborated in an Agile environment using Trello.
- Conducted Product Discovery and UX/UI design, creating high-fidelity functional prototypes to solve real-world problems.

Education

Bachelor of Science in Artificial Intelligence

March 2024 - November 2027

Universidad Tecnológica Nacional, Argentina

B.S. in Information Systems Engineering

March 2024 - November 2028

Universidad Tecnológica Nacional, Córdoba, Argentina

Skills

Next.js - React.js - Express.js - TypeScript - Node.js - Python - Django - Java - Spring Boot - SQL - React Native - C++ - CI/CD
Docker - Git - Arduino / ESP32

Languages

Spanish (Native) - English (Cambridge certified C1) - Portuguese (Basic)
